Environmental Board

City of Huntington Beach Environmental Board

Preserving the Environment for a Sustainable Future

The City of Huntington Beach Environmental Board addresses sustainability challenges and opportunities to enhance the overall economic, ecological and social environments of Huntington Beach.

The Environmental Board supports the City's evolving sustainability program by providing awareness through educational and advisory projects.

The Environmental Board assists City programs to reduce water and energy consumption and develop sustainable energy practices.

The Environmental Board promotes community awareness through City Environmental Awards presented each year to deserving individuals and businesses who demonstrate commitment to sustainability.

The Environmental Board reviews General and Specific Plans as well as Environmental Impact Reports with city staff to promote sustainability and a healthy community.
